

## STATEMENT OF ACCOUNTABILITY AND STEWARDSHIP

We the members and leaders of Issachar International Ministries want to make known our commitment to financial and other resources accountability in compliance with the laws (State & Federal) and all other regulations as well as the demand of the Laws of God (the Holy Bible).

We will make it our consistence practice of opening our books to all members and leaders as well as our partners. We further pledge to use all funds received for the intended purpose with records and reports except otherwise instructed by the donor. All contributions to the ministries are tax deductible and we are working on becoming an EFCA member soon.
